Sprint:	SHP Sprint 2
Expected result:	The “ON” button is displaced immediately below the Input parameters.
Actual result:	The “ON” button is wrongly displaced in the bottom of the main window, just besides the “PLOT“ button.
Step to reproduce:	<ol style="list-style-type: none"> 1. Access the app ShipReal Wind Calculator from Windows OS. 2. Identify in the main window the position of the “ON“ button.
Environment:	Testing
Severity:	Medium
Operating system:	Windows OS

Description
The "ON" button is not displayed on the main window immediately below the Input parameters of the ShipRealWind Calculator.
